

Transport

To make the Transport as easy as possible, here's some information about how it works.

If your trip starts with a transport:

Before you start:

1. Please arrive 15 min before planned starttime at Immelns Kanotcenter.
2. You will pay and get your equipment.
3. If we already transported the canoes you will get a key to unlock them at spot, or you are loading the trailer yourself when arriving at the center.
4. You will bring the equipment and drive yourself to the starting point and enjoy the tour!

When your trip is over:

Please clean the canoes and putt hem on their numbered rack and hand in the rest of the equipment in the canoecenter.

If your trip ends with a transport:

Before you start:

1. Arrival to Immelns Kanotcenter at the same time as on your booking.
2. When payment is done you will receive your equipment.
3. You will put your canoes in the water and start your trip in the beautiful lake Immeln.

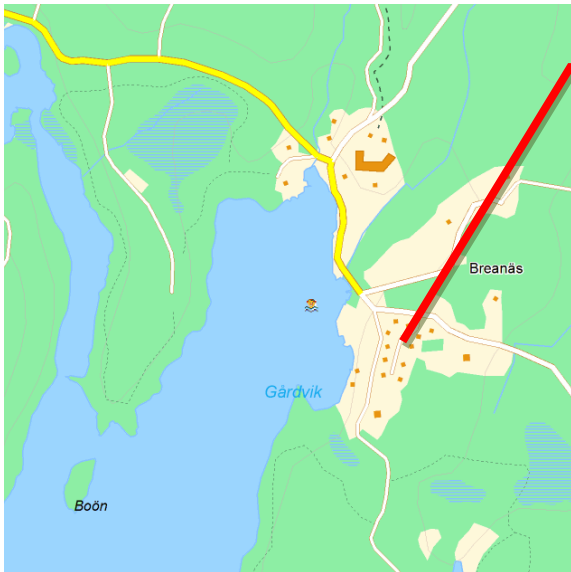

When you reach your end destination for pick up:

1. Be at the pick-up place in time!
2. When we arrive with the trailer, you have already cleaned the canoes and unpacked.
3. You will load the trailer with the canoes, or lock them where we asked you to if that's what we agreed on.
4. We take the canoes and you drive back to the canoecenter and help us unload your equipment.

Important information:

Since the transport requires a driver at a specific time it's very important that the booked time is held as agreed. If not, it might not be possible for us to do the transport and you are then responsible for taking the equipment back to the canoecenter. Rental costs will be charged until everything is returned.
